

Yousef Hesham

Frontend Developer

yousefkhalifa329@gmail.com | Cairo | 01128829775 | github.com/yousefkhalifa350 | <https://Myportfolio.vercel.app/> | [linkedin.com/in/yousef-hesham-8197a5284](https://www.linkedin.com/in/yousef-hesham-8197a5284)

Summary

Frontend Developer with experience building scalable web applications using React.js, Next.js, and TypeScript. Skilled in developing production-ready solutions including authentication systems, API integrations, payment workflows, and performance optimization. Combines technical support and business systems experience with modern frontend engineering to deliver reliable and user-focused digital products.

Education

Management Information System (MIS) - Modern Academy for Engineering and Technology
Bachelor's degree – 2022

Professional Experience

Technical Support Specialist

11/2024

- Linchpin | Almotakamel ERP
- Supported enterprise ERP deployments across multiple client environments
- Configured Oracle database and application infrastructure
- Diagnosed and resolved complex technical issues
- Collaborated with business users to ensure operational continuity

Accommodation Fulfilment Agent

11/2022 – 10/2024

Al-Matar

- Managed end-to-end accommodation operations
- Coordinated with property managers and resolved customer issues

Technical Skills

- **Front-End Core:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Frameworks:** React.js, Next.js
- **State Management:** Context API, TanStack Query
- **Forms & Validation:** React Hook Form, NextAuth.js
- **Styling:** Tailwind CSS, Bootstrap, shadcn/ui
- **API & Tools:** REST APIs, Git (GitHub, branching, Postman),
- **AI & Development Tools:** OpenCOde, GitHub Copilot Chat, VS Code
- **Build Tools:** Vite, Webpack
- **Performance Optimization:** Code Splitting, Lazy Loading, Image Optimization SEO fundamentals, SSR/SSG (Next.js)
- **Backend & Database Awareness:** SQL Fundamentals, Oracle database, Postman

Projects

Shopmart – E-Commerce Web Application

Tech Stack: Next.js, React, TypeScript, Tailwind CSS, NextAuth.js, REST APIs, Git, GitHub, Vercel

- Developed a full-featured e-commerce web application using Next.js and TypeScript
- Implemented secure authentication and session management using NextAuth
- Built and managed cart and wishlist functionality with efficient state handling
- Integrated Stripe for secure payment processing and seamless checkout flow
- Designed a responsive and user-friendly interface to enhance the shopping experience

Live Weather – Web Application

Tech Stack: Bootstrap, HTML, CSS, JavaScript

- Developed a live weather application that fetches real-time weather data from an API
- Displays temperature, conditions, and location-based forecasts
- Focused on usability and clean responsive design

SPA Project – Single Page Application

Tech Stack: React.js, JavaScript (ES6+), Tailwind CSS, React Router, Git, GitHub, Vercel

- Built a single page application (SPA) using modern JavaScript concepts
- Enabled dynamic content rendering without page reloads
- Improved performance and user experience

Bootstrap Exam – Responsive Web Project

Tech Stack: HTML5, CSS3, Bootstrap, JavaScript

Applied Bootstrap grid system, reusable components, and mobile-first design principles

Certificates

In Progress : AI Software Professional — Digital Egypt Pioneers Initiative (DEPI)

Shababna Initiative : UI/UX Design Training **Route :**Frontend Development Diploma.

Route : Programming Fundamentals Diploma

Learned basic programming concepts and problem-solving skills.

Tech Mind : Data Analysis (Professional Track)

Covered data cleaning, visualization, and analysis using Power BI and SQL.

British Council : English Course

Focused on improving communication, reading, and writing skills.

Professional Skills

- Problem Solving
- Team Collaboration
- Agile Development
- Technical Documentation
